Yesterday, Allen, armed with a bistol, and Wagoner, armed with a double, barrelled shotgun, returned and recommenced the controversy. While twas progressing, Charles Attwalt, who is boarding at Correll's, and temporarity attending to the toligate near by, interfered on behalf of the boy, and attempted to induce the negroes to go away. By so doing he got into trouble, one of the negroes, Henry Allen, snapping a pistol at him. Attwalt drew a pistol and fired a shot into the air over allen's head, when both negroes ran away. They returned, however, in a short time, armed as before, and seened determined upon doing mischief. They commenced abusing Attwalt, who was within the Correll house. Mr. Jee Strehl, the well known butcher who resided hear by, happened to be present. He approached the negro Wagoner, who had the shot-gun, and selzed it, remoustrating with them, and requesting them to go away from the blace peaceably, and to have no trouble. THE COMING EXODUS.

The Negroes of Georgia and the Carolinas Preparing for a Grand Hegira.

ATLANTA, August 21.—Information received here from all parts of the State make it certain that the negroes are organizing extensively for an emigration movement to Kansas. They are better fixed in Georgia than in any other State, owning over six milition dollars worth of property, mostly in lands which are assessed at a merely nominal value. They have free schools in ever county for colored children, supported by the taxes of white people, and a free university, supported by a State appropriation of eight thousand dollars per annum. In some countles they serve on juries, and have generally all their rights. They give no reason for their proposed exodus, and seemed to be possessed with a strange spirit of unrest, and many of their leaders seem to have hopes of establishing a State in which the negroes shall have supreme and unquestioned sway. There can be no doubt that thousands of negroes will leave the State as soon as the cotton-picking season is over, and similar restlessness is reported among the negroes of Alabama and the Carolinas. There are no signs of geents for the scheme, but the exodus is preached from home pulpits by our own negro preachers. There is no scarcity of negro inbor in either of these States at present.
